

LAURASTAR 

IRONING MADE EASY

#PURIFY

#BEAUTIFY

SWISS ENGINEERING | DESIGN

A NEW BREATH OF FRESH AIR FROM SWITZERLAND

In the early 80's, an innovative Swiss entrepreneur started working with an Italian engineer towards a single goal: to beautify your life.

How? By creating an ironing board with an integrated, professional steam generator to provide all of steam's beneficial effects, at that point inaccessible to the general public. The result? Unrivalled ironing quality to enhance the beauty of your clothes as well as purify them by eliminating 99.999%* of bacteria. It was an instant success, and now Laurastar is the world leader in professional ironing systems for home use.

For over 40 years in business, the family-owned Swiss company, continues to manufacture its products in Europe. Created with innovation at its heart, Laurastar provides a breath of fresh air to your life every day.

*Scientific tests carried out by the Scitec Research SA laboratory in Switzerland.

LAURASTAR IS COMMITTED TO LIFE

STOP OBSOLESCENCE PRIORITIZE LIFE

Waste is a major problem today affecting our planet and our lives. This is why Laurastar has committed itself to fighting against planned obsolescence. Loyal to the Swiss values it defends, Laurastar creates reliable, long-lasting quality products that undergo intensive testing to keep you from consuming more than necessary.

Protecting the environment means taking concrete action: Laurastar promises to manufacture products that are built to last.

Laurastar Iron Lifespan VERSUS the Average Iron

(1) Laurastar System

Lasts 10 + years

VS

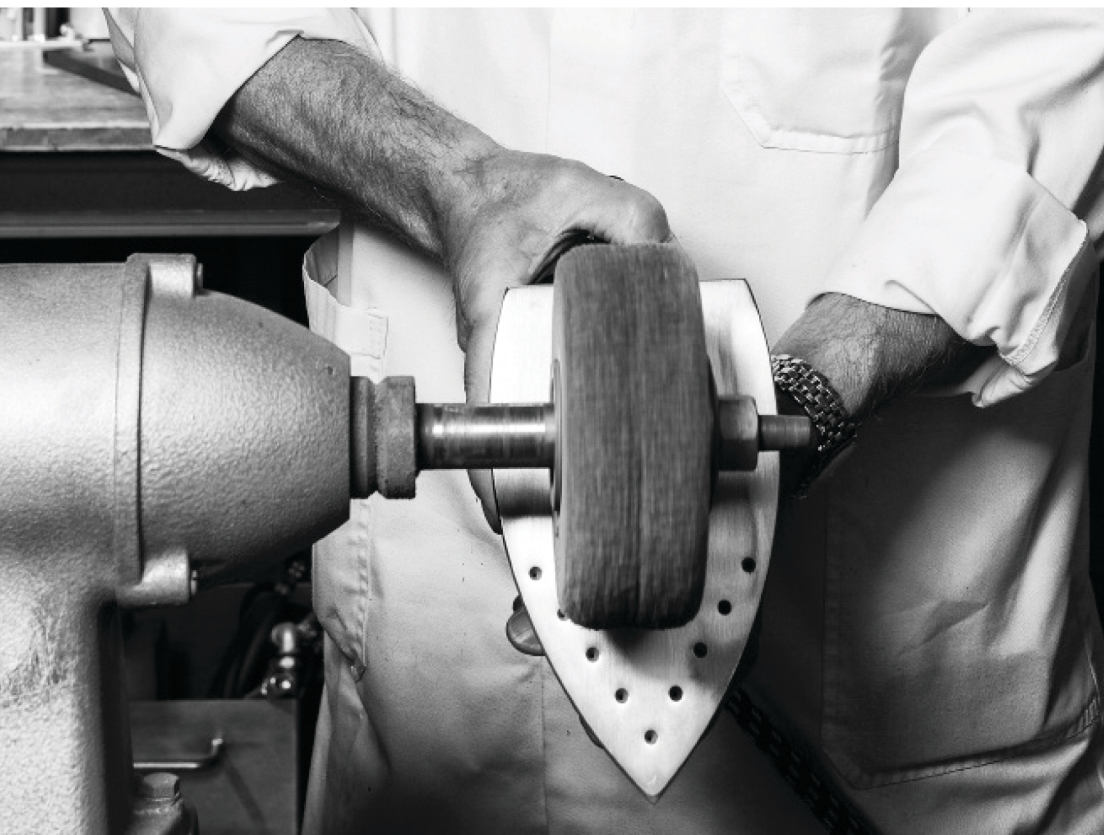

Average Irons

SWISS SKILL, A STANDARD FOR EXCELLENCE

Laurastar is an investment into quality, performance and efficiency.
Like a Swiss watch or a German car, the state of the art technology
will help you enhance all your textiles and your everyday life.

 SWISS ENGINEERING | DESIGN

HYGIENIC STEAM

What is Laurastar hygienic steam? What does it do?

The simple act of ironing with a Laurastar iron purifies clothing naturally and lastingly. Bacteria, fungi, viruses, and dust mites are eliminated effectively and odors along with them. A study carried by independent labs in United States and Switzerland has demonstrated the the unique Laurastar hygienic steam (Dry Microfine Steam) kills 99.9% of all unwanted pests and also leaves clothes perfectly dry, leaving little to no chance for microorganisms to breed.

ONE SIMPLE MOVEMENT AND PESTS DISAPPEAR NATURALLY!

THE THREE KINDS OF MICROORGANISMS OBSERVED

VIRUSES

There are about a 100 families of viruses of which only some are responsible for diseases in humans. The Coronavirus is one of them.

BACTERIA

There are 10 more times more bacterial cells than human cells in the body. Certain species of bacteria can cause illnesses and allergies.

DUST MITES

They like humidity and heat (starting at 66°F) and they love curtains, teddy bears, coats, and other textiles—especially items that have to be washed on cold cycles.

THE RESULTS OF SCIENTIFIC TESTS SHOW THAT THE LAURASTAR DMS STEAM ELIMINATES IN 5 SECONDS:

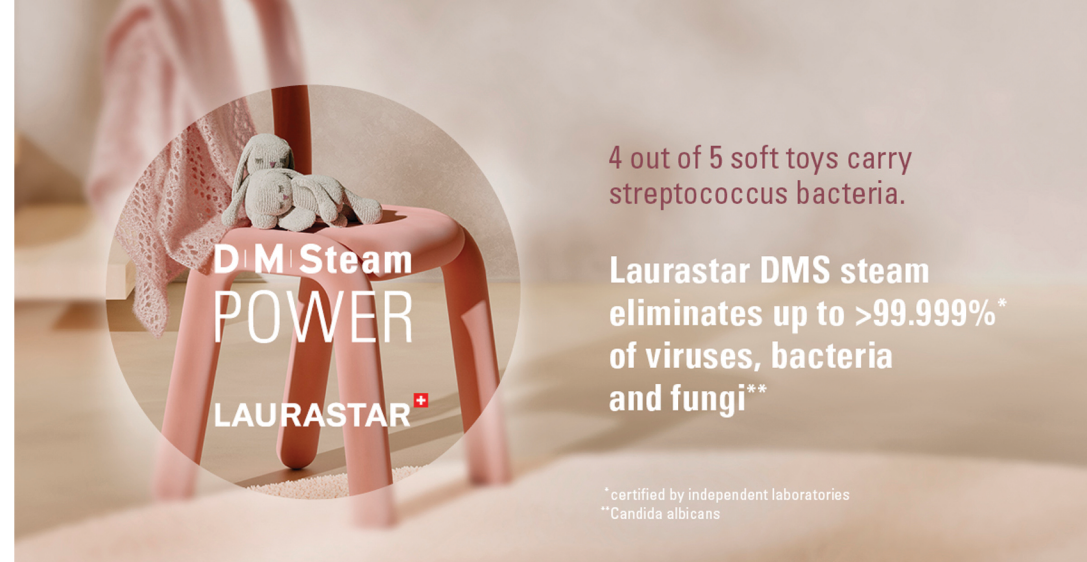

99.9%
OF VIRUSES*

99.9%
OF BACTERIA

*Proven success on Coronavirus

100%
OF DUST MITES

KILLS 99.9%
OF VIRUSES, BACTERIA AND DUST MITES

Laurastar Dry Microfine Steam (DMS) is the perfectly adapted prevention technique for clothes and fabrics that are in direct contact with the skin of children or babies, as well as for all delicate items that cannot be washed in higher temperatures and for coats and other fabrics that are not washed frequently. A natural solution to effectively eliminate pathogenic organisms while taking care of your clothing at the same time.

DITCH THE CHEMICALS,
JUST USE OUR SAFE, SUPER-HEATED, POWERFUL, DRY STEAM!

PREVENT GERMS AND ALLERGIES

WHY LAURASTAR?

SAVE MONEY

- + No need to drop-off or pick up dry cleaning
- + No need to wait for the dry cleaners
- + No harsh chemicals in your clothing
- + No damaged or lost clothing

DRY STEAM

- + No re-wrinkling of your fabrics
- + No shrinking or distorting of your fabrics
- + Color safe and gentle
- + Kills 99.999% of bacteria in textiles

SAVE TIME

- + Iron multiple layers at the same time
- + Cut ironing time in half
- + 3D soleplate removes even the hardest wrinkles
- + Quick and easy setup and storage

ENJOY IRONING

- + Iron a pile of clothes in half the time
- + Experience how easily the iron glides over fabric
- + We promise an easy and efficient experience
- + Designed for both right and left-hand use

PROFESSIONAL TECHNOLOGY TO
SERVE YOUR EVERYDAY LIFE

KEY LAURSTAR TECHNOLOGY

DRY MICROFINE STEAM BY LAURASTAR

T H E B E S T S T E A M H A S T O O F F E R

One superheated drop of water is transformed into Dry Microfine Steam, expanding in volume by a factor of 1,600. In addition, the steam is diffused 15 times faster than the steam of a standard iron. That's the beautiful secret of Laurastar steam's heightened effectiveness. The expansion and power of the steam as it leaves the iron allows it to penetrate textiles uniformly and effectively, leaving them uniquely plumped. What's more, Laurastar Dry Microfine Steam (DMS) does not leave your clothing damp and fixes fibers in place so that your clothes are perfectly ironed and thoroughly cleaned.

D | M | S
DRY MICROFINE STEAM

KEY LAURSTAR TECHNOLOGY

ACTIVE 3D SOLEPLATE

To ensure your clothes remain beautiful, Laurastar created the 3D active soleplate. An exclusive feature that offers unrivalled ironing in a single movement, thanks to the surface of the soleplate that holds the fabric in place while steam is distributed over its entire surface to effortlessly eliminate creases. The fibers are thoroughly refreshed.

KEY LAURSTAR TECHNOLOGY

ACTIVE BOARD

Featuring a vacuum and fan system, the Laurastar active ironing board saves you time all while breathing new life in your clothing.

The fan system automatically holds the fabric in place on the board and creates an air cushion to prevent the formation of creases. It also allows you to remove wrinkles by simply using the extraordinary steam without even touching the fabric—saving you time!

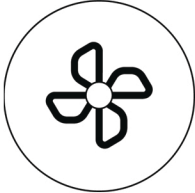

The vacuum features pulls the fabric to the board allowing it to stay flat, making it easy to iron creases. The vacuum feature also saves you time by allowing you to iron multiple layers because it pulls the steam through each of layer of fabric.

LAURASTAR

UNIQUE LAURASTAR TECHNOLOGIES

The 4-speed blower and vacuum system

inflates the board with air to hold the fabric in place and prevent unwanted creases, or holds the clothes on the board for perfect folds.

No more creases!

The 3D active soleplate

straightens the fabric while the steam is efficiently distributed over the entire surface, to effortlessly eliminate creases and freshen the fibers deep inside. Unparalleled ironing quality in a single step!

No more strains!

The ideal temperature

for the thermostat has been cautiously studied and selected for a perfect result on all fabrics. Your Laurastar Smart or Lift Xtra will automatically reach the ideal temperature for all your fabrics.

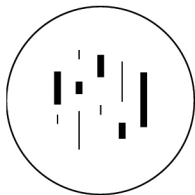

No more temperature settings!

Sensteam Technology

senses the movements you make with the iron and activates the steam automatically. There's no longer any need to press any buttons.

Just start moving and steam will be released!

Pulse Steam

is the ultimate finishing touch to take care of your clothing. Pulse steam is diffused through a series of intermittent bursts.

Ensures an optimum amount of steam for perfect results!

LAURASTAR SMART

THE WORLD'S FIRST CONNECTED IRON
PERFECTION AT YOUR FINGERTIPS

LAURASTAR GO PLUS

YOUR
FIRST ALL-IN-ONE
SYSTEM

The Go Plus is perfect for discovering the world of Laurastar ironing. Featuring key Laurastar technology, it is an excellent choice that combines comfort and performance.

LAURASTAR GO PLUS

 SWISS ENGINEERING | DESIGN

With Laurastar Go Plus, you have all the essential and exclusive Laurastar technology: an iron and Laurastar DMS (Dry Microfine Steam) as well as an active ironing board that features a vacuum and blower system.

Everything goes smoothly with the Laurastar Go Plus, ensuring perfect results.

- + PREVENTS CREASES with the active ironing board with fan function
- + PURIFIES TEXTILES with Laurastar DMS (Dry Microfine Steam), which eliminates dust mites, bacteria and fungi that resist being washed in lower temperature cycles.

LAURASTAR LIFT

THE ONLY 3 - IN - 1
THAT IRONS, STEAMS AND
PURIFIES

Laurastar revolutionizes ironing with the Lift portable steam station, the only 3-in-1 that irons, steams and purifies. With a unique design and exceptional steam, ironing becomes simpler than ever to make your life easier. From the ironing board to the hangers in your closet, right down to the finishing touches on a hanging garment, Laurastar Lift is right there with you.

AN AIR OF FREEDOM

From the ironing board to the hangers in your closet,
right down to the finishing touches on a hanging garment,
Laurastar Lift is right there with you.

To iron, steam and purify,
its portable features give you freedom and peace of mind.

LIFT

Laurastar's first portable 3-in-1 steam generator, the Laurastar Lift Original irons, steams and purifies your fabrics.

With a unique design and exceptional steam, ironing becomes easier.

- + You can IRON ON A BOARD OR STEAM DIRECTLY on a hanger
- + PERFECT RESULTS in a single movement for all fabrics and colors thanks to a professional iron
- + EASY TO PUT AWAY, EASY TO MOVE around and ready in 3 minutes thanks to its unique ergonomics
- + PURIFIES FABRICS thanks to Laurastar DMS, which eliminates the dust mites and bacteria that resist lower temperature wash cycles*
